

Application Serial No.: 09/668,255
Amendment dated April 6, 2005
Response to Office Action dated December 13, 2004

Remarks

In response to the Office Action of December 13, 2004 in the above-identified patent application, Applicant elects Group I drawn to claims 1-8, 12-17, and 34-62 without traverse.

Applicants' representative notes that he spoke with Examiner Colbert in a telephone conversation on March 31, 2005 regarding the lack of classification of pending claims 9-11 and 26-30 in the Office Action of December 13, 2004. Applicants request that claims 9-11 be added to and examined as part of Group I.

Claims 26 and 27 are amended to correct dependencies, but remain withdrawn.

Examination of the application is thus requested. If the Examiner has any questions in regard to this matter, she is invited to contact Applicants' attorney at the number below.

Applicants believe that a three month extension of time is due. Commissioner is authorized to charge PTO Deposit Account no. 19-4972 for \$510.00 and any additional fees or overpayments in connection with this response.

Respectfully submitted,
